

## BIBB COUNTY MASTER GARDENERS

# FRESH HERBS

## BENEFITS AND HOW-TO's

Learn how to grow, care for, harvest, cook with and preserve fresh herbs along with reviewing medicinal purposes. Join recent Bibb County Master Gardener grads in lively discussions of lessons learned and using herbs for healthier cooking. Sign up for one of the three scheduled county classes. The summer class covers basil, mint, cilantro, rosemary, thyme and lavender. The fall class offers sage, fennel, cumin, chamomile, oregano and lemon balm. The first twelve pre-registered participants who attend the class will receive your own herb with a nice pot and a laminated review of herbs for your own kitchen.

**FREE !**
